Major Part B for April 1902

SUBJECT.

Improvement of the Mysore City

By. No.	Letter No.	Dated.
1. 10130 / 1733	710	26.4.1899.

From, The President, Mysore Municipality
Submits an estimate amounting to Rs 26291 for further improvement to the Mysore city.

2 -	12976 / 1790.	13.5.99

To, The President,
Requests to inform whether the Municipality is able to pay Rs 19345 as annual instalment.

GPB—10,000—23 3-15

Note

With reference to the Mysore City Municipal Presidents proposal of raising a loan of 2 lacs of rupees in open market, the Dewan was pleased to put certain queries. The queries and replies to some of them are noted below in juxtaposition:-

The Dewan's queries

The exact purposes for which the loan will be applied have not been stated. This is important and the information must be obtained.

Para 9 of the Memo. Genl. Progs. No. Pg 210-12 Dy 15-9-1900 -

1) To what extent has this proposal been carried out? 2) If not why not? What is the cause of delay?

3) How much money was

1) Please see Pl no 84. There it is simply stated that the amount is for "further improvements" in the City, "for constructing drains" and for "acquiring houses".

2) The only information available in office is that subsequent to the 15th Septr 1900 8 Sanitary houses were built at ~~Chetpet at a cost of Rs 2900~~ Chetnahalli Camp at a cost of Rs 2900/-

paid in compensation since 16th September 1900 and how many houses were pulled down?

5, How many new houses were built during this time?

6, The Vice-President informed me that the houses which are ordered to be removed are generally encumbered with debts charged on them, and that therefore the whole compensation amount would not be available for the building of the new houses - The inconvenience brought to notice is perhaps real -

1, Ask how this inconvenience may be removed -

2, Is it not possible to transfer this charge from the old to the new house.

3, Would the effort be ~~the~~ stimulated by offering the land gratis?

4, Why should not blocks of houses, say about 100 in each, of a standard design

that Rs. 90000/ were advanced towards the cost of extension the extension scheme being the outcome of the above order

and of cheap construction be
built and offered to different
Communities

A draftee is submitted
calling for information on al
the points.

289-01

Submitted.

Please see paras 4 & 5 of
the Govt order no Pg 343-8 dated the
11th October 1900 (Serial no 5 in the
Pay Branch file) and Govt order

No Pg 975-6 of the 7th February

1901.

In the order of the 11th Oct

it was observed that no com-

pensation would be paid to persons

dispossessed of houses in the

City until they had built new

houses in the extensions or given

satisfactory guarantees for

so doing. Govt were, however,

quite aware that that injunction

was not capable of being enforced

and accordingly left the matter

entirely to the discretion of

the Dy Commissioner (Vide

order of the 7th Feb 1901)

No. 710 MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Enc. No. 5 books and 2 Statements } Dated 26th April 1899.

To

The Secretary to the Government of Mysore — Revenue and General Department

SIR,

Books I to V In submitting an Estimate for Rs 2,37,911 for the further improvement of the city, I have el. 34, 36 the honor to state that out of the loan of Rs 1,17,253 sanctioned for the improvement of the city Rs 92,346 was allotted as compensation for houses to be acquired and Rs 24,909 for construction of drains. Out of the above sum for compensation, Rs 46,760 has been spent on works provided in original Estimate and Rs 37,917 on Works for which sanction was obtained subsequently to be met out of the savings of works in the original estimate. There is a balance of Rs 7670 which is hardly sufficient to meet the cost of incomplete works amounting to Rs 62,489

6760
1917
4617
7427
2347

For the Construction of Drains a sum of Rs 31,409 has already been Sanctioned out of the above loan. Of this only a small portion viz: Rs 3,176 has been spent as there was difficulty in procuring labour and Stone Slabs owing to the prevalence of Plague. Arrangements have now been made to get Stone Slabs in large quantity and the work will be pushed on, as the want of Drains is very much felt in the newly opened out localities. After the completion of the remaining works, a completion Bill will be Submitted for the works carried out of the loan fund. An abstract Statement Showing the Estimate Sanctioned from time to time and the works carried out is herewith Submitted for ready reference. You will see from the same that the whole Estimate amount sanctioned, including that of the original estimate, is Rs 1,76,402. (Vide Statement

For want of funds, acquisition of houses in Bestagore, Nimbatalore, and Ganeshtore in Lashkar Mohalla for whose improvement a Sum of Rs 40,573 was provided (sl 87) in Govt Proceedings No. 7129–31 dated 9th December 1898, is still incomplete. Including this, the above Estimate of Rs 2,37,911 for the further improvement of the town has been prepared as per instructions of the Plague Commissioner. All the parts of the city now proposed to be opened out are as bad as Bestagore, Lashkar Mohalla; It is very necessary to open out all these Congested parts on Sanitary grounds and also on the experience gained that the havoc committed by Plague, was not so bad in open as in the unopened parts of the city.

Total compensation of VI Mohallas as per estimates Books I to V Vide Statement I

Besides a Sum of Rs 20000 is required for removing the houses condemned by the health officers, and a further sum of Rs 5000 for

Vide Statement II

requirements

acquiring lands for extending the town. The new lands acquired will be laid out for building Sites, just on the plan of the Western Extension. Including these two items, the total amount required is Rs 2,62,911. A Contingency of 20 per Cent is provided in the whole Estimate, amount to meet unforeseen expenses and also the cost of removing houses and forming roads.

As per personal instructions of the Plague Commissioner, I submit the above estimate, and request that you will be kind enough to obtain the Sanction of the Government to grant the above Sum as a loan for further improvements of the city.

No. 21

Enc. No.

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Dated 10th July 1894.

To

The Secretary to the Govern-
-ment of My Sore
Revenue and General Depts

SIR,

With reference to your docket
No: 12974/R.F.204-93 dated 13th May 99 request-
-ing to point out the ways and means
for the repayment of the additional
Loan of Rs 2, 62, 911 for further im-
-provements proposed in the city of-
My Sore and also report how the
Municipality will meet other demands
including the payment for the Loan
already Sanctioned in April 98 &c:
I have the honor to State that the
question was discussed in the Board
on the 24th June 99 and a Sub-
-committee was formed to consider
how the Municipal Revenue may

may be increased and what portion
of the current years Budget provi-
sion could be made available to
discharge the debt. Its report
dated 29th June 99 was approved
by the Board at the adjourned
Ordinary meeting held on the 18th
July 99 and is herewith Submitted
together with the resolution of the
Board for favourable consideration
of the Government.

The Government are aware
that the opening out the congested
parts is very essential to the health
of the people, and this is the best op-
portunity to acquire the houses as
the people will come to reasonable
terms with regard to the Settlement
of Compensation, having learnt
from past experience that pure
air and Sun light are important
factors for this well being.

The

The Sub-Committee in its re-
-port proposes an income of Rs 18,000 over
the present Revenue under a few heads and
it is thus considered feasable to improve
the financial condition of the Municipa-
-lity.

(a) The 1st item is the levy of duty on
metal.

The duty on metal now pro-
-posed to be levied is, I believe, collected
in some municipalities outside the pro-
-vince, and its collection at 2 per cent
ad-valorem is easy and the people are
not likely to take objection to its adop-
-tion. The Sanction to introduce this
tax at 1½ per cent of its value was
accorded so far back as 1879 in para
22 of Government Order no. 3362-73 / No 161 dated
24th Sept 99 Vide page 171 Mysore Re-
-venue Manual, but it was not adopted till
now.

(b) The 2nd item is to raise duty
on cloth.

In this City [illegible]

a duty of 5 per cent ad-valorem was levied on cloth under the above order, and the merchants were paying the same without any complaint. But it was reduced to 3 per cent in the year 1880 under Government Order No. $\frac{3940-50}{Mt-212}$ dated 7th October 80 and again reduced to 2 per cent to secure a uniform rate on "Piece goods" manufactured in India as well as on "Sea-borne goods" with a view to increase the Revenue. But the Government sanctioned the levy of 2 per cent on all Indian manufactures only. This reduced the municipal Revenue considerably. It is now proposed to raise the duty on all Indian manufactured "Piece goods" to 3 per cent which will bring a Revenue of Rs 5,000.

(C) The 3rd item is the revision of House Tax.

The tax levied many

many years ago on most of the old houses according to the then valuation, has not been revised, though their value has since increased 4 or 5 fold and even more in some cases on account of the improvements effected from time to time by opening broad streets and roads. The nooks and corners in which these house existed have become important localities and the buildings themselves have become more valuable than those construc-ed on new sites. Nevertheless the tax on the original valuation is still continued and the revision of house tax may be sanctioned as proposed in my letter No: 272 dated 18th Nov. 97. If however it is consider objectionable to sanction system of house tax on valuation as being inconsistent with the provision of the municipal Re-gulation in force, the difficulty can be easily got over by treating a house pay--ing Rs 5 tax on valuation as realizing an annual rental of Rs 100. This alteration

in the accounts will not, I believe, affect the Municipal Revenue as now revised.

(d) 4th item is the increase in tobacco by avoiding smuggling.

The duty on tobacco is falling off year after year on account of smuggling becoming more and more common; and unless the shop-keepers are compelled to take licenses just as is the case with liquor-shops, smuggling cannot be effectually checked. In the Bangalore city, there is no room for clandestine sale as the Bye-laws in force there, have not only prevented smuggling but have enhanced the income under this head to Rs 11,000; whereas it is in this city only Rs 3762; though population of both the cities is almost the same. There will be, therefore, no difficulty to collect Rs 3,000 more if the same bye-laws are introduced here as proposed in

replies 13919 01 / 344 97
12/61 ✓

in this Office letter no. 304 dated 15th Dec 97

The usual provisions of Rs 5000 and 8000 in the Budget under the heads of "Repayment of Loan" and Compensation respectively may be made available towards the re-payment of the proposed Loan if sanction-ed.

If these proposals are sanction-ed by Government, the additional in-come as well as the savings of the annual Budget will be sufficient to repay the Loan already sanctioned in Government Proceedings no 12970-72 / F 204 03 dated 11th April 98 and the further Loan now asked for

The Government has done a great deal for my Zone and the Board is fully aware that it cannot in reason expect more, but under the peculiar circumstances of this city, it has no alternative but to come to the Govern-ment for help.

Under these circumstances I

I request that you will be good enough to move the Government for Sanctioning the above proposals and grant the Loan at a reduced rate of interest considering the large amount of the Loan applied for.

I have the honor to be,
Sir,
your most obedient servant
H. Ramjidas

(4) a

The President

City Municipal Board

Mysore

Sir,

We, the members of the Sub-committee appointed under resolution no V of the Board proceedings dated 24th June 1899 to consider the ways and means for the repayment of the additional Loan of Rs 2, 62, 911 now required for the further improvement of the city of Mysore, have the honor to report as follows -

The Sub-Committee meeting was held on Thursday the 29th June 99 at 5-15 P. M. and the members present were -

Vice President

Mr M. Shuk Ibrahim Sahib

" M Venkatakrishnaiah

Mr. Ambika Anmach Pandit

" B Venkatadasappah

and those absent were -

Mr. Chandrasakaraiah

The Rev W. H. Haddsworth

That the estimates and plans prepared for the opening out the congested parts of the city perused and inspected We are of opinion that these improvements are necessary to avoid not only Stagnation of Sewage water, but also its Soakage and the consequent contamination of the Soil. The improvements aim also at supplying to all houses pure air and Sun light So essential to the health of the Town

"Scheme for opening out congested parts of the City"

To meet this extra demand several ways were considered and we arrived at a conclusion that the under mentioned means are possible and can be introduced to increase

our resources

"Duty on metal"

(1) That a duty of 2 per cent may be levied on metal viz Iron Copper and Brass" and the estimated income from this source would be Rs 5'000.

"raise duty on cloth"

(2) Formerly 5 per cent on cloth was levied, but on the recommendation of the Board, it was reduced to 2 per cent Now we propose that it may be raised to 3 per cent This will bring in an income of Rs 5,000

"Revision of House tax"

(3) A proposal has been Submitted to the Government to sanction the revision of house-tax according to the Valuation of the house This if sanctioned by the Government will bring in an additional income of Rs 5'00

"Increase in tobacco if Bye-laws introduced"

(4) The Government have been requested to sanction the introduction of Bangalore city Bye laws regu-

regarding tobacco and of the same
adopted after obtaining sanction,
will bring more Revenue than what
now collected and the same is esti-
mated to be Rs 3,000. Thus it will be
seen from the above that the extra
income would amount to Rs 18,000.

The Savings to be effected
in the Budget grant.

Towards the market Loan, a
Sum of Rs 5,000 was set apart every
year and it is now finally discharged.
The same is available for redeeming
the Loan now to be asked for. There
will be no necessity to provide for
compensation hereafter, so the pro-
-vision of Rs 8,000 to be made every
year in the Budget may be advan-
-tageously taken for the discharge of
debt.

The extra income of Rs 18,000 to-
-gether with the available Sum of Rs 13,000
Saved out of the yearly allotment will

Savings un-
-der repay-
-ment of Lo

Saving
compens

will bring a total Sum of Rs 3100.

A Statement showing the probable income under both the items is enclosed for information of the Board

The Government in their Proceedings no. 1154-1-50 & 7 262-96 dated 16th April 99, prescribed 4 per cent of interest to be levied on Loans to be granted to the Municipalities But we think that this is only applicable to the minor Municipalities, which borrow comparatively very Small amount. In the case of this Municipality which borrows a large Sum, a reduction in the rate of interest is reasonable and the Government may be moved to grant the Loan on reduced interest of Rs 3.

"Reduction of rate of interest"

We have the honor to be,
Sir,
your most obedient Servants,

(Signed) H Thayumanaswamy, Vice President
" M Venkatakrishnaiyah
" M Shuk Ibrahim Sahib
" B Venkatadasappah
" Cowcl Commissioner Rs 3000

Enc. No. 3

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Dated 5th July 1900 ~~189~~

To

The Secretary to the Government of Mysore,
Revenue and General Departments.

SIR,

I have the honour to state that an estimate costing Rs 117265 for opening out the Congested parts of the City was submitted to Government for Sanction and the Government were not only pleased to sanction the above estimate but also sanctioned a loan of Rs 117265 for meeting the above cost in Government (dl 34) Proceedings Nos. 12970-72 / L7 204 93 and 16525-6 / L7 204-93 dated the 11th April and 18th June 1898 respectively.

2. In the original estimate, one rupee was provided per square yard of land but at the time of acquisition, the land was, in the majority of Cases, acquired for less than what had been estimated for. Altogether a sum of Rs. 43,876-11-3 was spent for Carrying out the works

works proposed in the original estimate
A statement is enclosed showing the ~
amount provided for each work and the-
sum spent.

3 In the meanwhile Plague broke
out and when the Plague Commissioner
paid several visits, he ordered that the
Plague affected parts of the City be ~
opened out first Accordingly estimates
were made for those works and sanction
was obtained to carry them out, several
of those works have also been carried out
at a cost of Rs 44 292-12-8 and a list
is herewith submitted for reference.

4 Besides that, houses at a cost of
Rs 10663-9-4 were purchased and ~
demolished as they were pronounced
to be unfit for human habitation.
There are many houses still to be pulled
down under the Health Officer's ~
Certificate, But for want of Funds ~
nothing has been done. Thus a sum
of Rs 98833-1-3 has been spent for
Compensation alone, besides Rs 10469-15-3
spent for building drains, Rs 7956-10-6
for forming roads and pulling down
houses.

10469 15
7956-10-6

5. The work of opening out of the Congested parts was rapidly pushed on as a special grant was Expected to be sanctioned to recoup the amount spent in removing the Condemned houses under the Epidemic Act. Now the whole of the loan amount has been spent but several works as per List enclosed remain incomplete. A sum of Rs 19284-2-9 is required for the Completion of these incomplete works. They as well as several works have been sanctioned by the Government and also payment has to be made for the properties which have already been acquired; but the settlement of Claims are pending in the Civil Court.

6

As per Government Proceedings no 11541-50 / L7262-96 dated 4th April 1899, the amount of loan that can be advanced for every rupee of promised annual payment

is Rs 13·59033 And this Municipality having already agreed for an annual payment of Rs 10,000, the amount of loan that can be advanced will be Rs~ 135903, but the amount already advanced is only Rs 117265. A further sum of Rs 18638 may therefore be advanced to bring the total amount to Rs 135903

I request you to be kind enough to move the Government to sanction at least the above sum of Rs 18638 in case the Government is not pleased to sanction the further loan of~ Rs 262911 as requested in my~ letter no 26 dated 26th April 1899

I have the honour to be
Sir
your most obedient servant

H Bruyn Hug Jnr
For President

SECTION Misc.
FILE NO. 1[illegible]
SERIAL NO. 5

Letter No.710 dated the 26th April 1899 from the Presdt. of the Munl.Comm.,Mysore City, applying for a loan of Rs.2,62,911 for town improvements.

Also, correspondence ending with letter no.2 dated the 5th July 1900 from the same officer praying that at least a loan of Rs.18638 may be granted if the Govt. is not disposed to grant the whole of the sum of Rs.2,62,911 applied for in the above.

ORDER THEREON:- RL98 931-5 B 21/7/00 ~~21 1049 63~~

The President is referred to Govt. Procds.No. 910 dated 21st July 1900, and he is informed that the Government are unable to grant the loan applied for under existing circumstances.

2. Government take this opportunity to note that the condition of the finances of the Mysore City Municipality demands energetic and sustained action on the part of the Board and its executive officers. The municipal income of the ~~town~~ City is not what it should be for its size and importance. The taxation is in urgent need of revision, and should be brought up to the standard of what obtains in similar cities elsewhere.

3. The Government has already spent large sums of money on measures of plague prevention,—which elsewhere is a charge on municipal revenue,—on the water-supply of the city, and on ~~its~~ the improvement of the city in various ways. There still remain several other works to be carried out, for which the necessary funds must be provided by the Board out of its ordinary income, supplemented, if need be, by a loan raised in the open market on the security of the municipal income. But before any such loan can be raised, the Municipal Board has to place its income and expenditure on a satisfactory basis, and draw up a sound programme for the repayment of the required loan. With such a programme before it, and with proper safeguards for its punctual fulfilment, the Govt. will be able to sanction the raising of the loan with a definite Govt. guarantee for its due repayment.

4. In the meantime, the ~~work of~~ demolition of houses certified by the Health Officer to be unfit for habitation is ~~an urgent~~ a work of improvement which must be urgently carried out, and the President must find the requisite funds therefor by suspending expenditure on all other ordinary work. He should report whether any, and what, portion of the loan already sanctioned by Government has been utilized for the demolition of houses, and, if no portion has been so ~~explained~~ utilized, explain why not. He should also submit a report,

accompanied by an abstract statement of income and expenditure, on the present financial condition of the Municipality, its capability to meet the expenditure required for removing condemned houses and opening out streets, any re-trenchments the present expenditure can admit of, and the resources that exist for improving the income. This report should be submitted as early as possible but its submission need not delay the taking on hand of the work of demolition already ordered, which must be started forthwith.

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Dated 27th August 1900 ~~189~~

To

The Secretary to the Government of Mysore,
Revenue and General Departments.

SIR,

With reference to Government Proceedings no 931-5 / 27 204 93 dated 21st July 190 declining to sanction the further loan of Rs 2,62,911 asked for for opening out Con-gested parts of the City, I have the honor to state that the plague is taken a strong hold in the City - especially in those congested parts which require open-ing out as early as practicable. I therefore consider that this work should be taken in hand early, to bring the disease under control.

I humbly beg that you will be good enough to move the Government to reconsider the application submitted

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE.

Dated [illegible] 1900

To

The Secretary to the Government of Mysore
Revenue and General Departments

SIR,

I have the honour to refer to the Government Proceedings No. [illegible] dated 21st July 1900, calling for a return showing with a statement of income and expenditure on the present financial condition of the City Municipality to state the reasons to submit herewith a copy of the report the Sub-Committee appointed under Resolution dated 6th August 1900 to examine the income and expenditure of the Municipality. It will be seen from the report of the Sub-Committee that the following proposals are made -

(1) That Government [illegible] of Education and [illegible] should [illegible]

(2) That [illegible]

cent ad valorem be levied upon all metals imported into the Town for Sale

(3) That the Bye laws which are in force in the Bangalore City Municipality be also introduced into Mysore City to regulate the Sale of Tobacco.

(4) That a Conservancy Cess be levied similar to the rate Sanctioned in the Bangalore City municipality

2 The above report of the Sub-Committee was placed before the Board at its meeting held on the 29th September 1900 and was approved of by it

3 I beg to Submit that, if the Government be pleased to Sanction the several proposals made by the Sub-Committee, an increase of Rs 53,196 is expected per annum including the realizations from toll gates and revision of house tax. Besides these, Rs 10,000 and Rs 2,000 provided every year for Compensation and "Building Original" respectively,

will be saved as there will be no necessity for further acquisition of houses, lands &c. Including all these items, there will be a sum of Rs 65,196 available for meeting the repayment of loan to be raised hereafter.

4 The Suggestions made by the Sub. Committee are not new, as they were placed before the Government in 1896 and in 1899. The imposition of new taxes now proposed will, it is presumed, not press hard upon the people

5 A proposition statement showing the present and proposed Establishment in the head offin, is submitted evincing an increase of Rs 3,780

6 Another statement showing the present income from all sources and that anticipated from the proposed taxes &c with expenditure, is enclosed, from which it will be observed that an increase of revenue including the balance on the 1st of July 1901, is expected to be Rs 96,509.

the present Manager and the - anitary Inspector may be provided elsewhere, as there is no necessity for such high- -ly paid Officials when a Collector- of a Deputy Amildar's Status and a graded Health Offiur are propos- -ed to be appointed to supervise the collection and Sanitation in the City respectively.

The Sum of Rs 1,17,265 lent to the Municipality (Vide Government proceedings no 12970-72/L.S. 204-93 and 16,525-6/L.S. 204-93 dated 11th April and 18th June 1898 respectively) has been expended in opening out the Congested parts of the City and a detailed re- port on the subject has already been submitted with my letter no 2 dated 5th July 1900. The demolition of houses condemned by the Health Officer, has been taken in hand and the Sum of Rs 39,000 Sanctioned in Government proceedings no 3089-92/L.S. 3086 - dated 21st August 1900 will be utilized for this purpose, and on works still

-Still incomplete. A detailed re-
-port will be Submitted on the com-
-pletion of these works.

9 A copy of the resolution of the Board dated 29th September 1900, is herewith Submitted; from which, it will be seen that the Board unanimously agreed to raise a loan of Rs 2,00,000 in the open market at 4½ per cent to be repaid in 20 years, on account of the improvement of the City.

10 I Consider that the amount now to be raised as loan in open market is very small, Considering the nature of work to be done in the City. However an attempt will be made to complete improvement with the loan to be raised including the loan already given by the Government in their Proceedings no $\frac{3089-92}{\text{F. }386}$ dated 28th August 1900, and the current revenue of the Municipality.

11 I request that you will

will kindly move the Government to authorize the Board to raise the loan at 4½ per cent in the open market on the security of the Municipal revenue with Government guarantee for repayment in 20 years

I have the honor to be,
Sir,
your most Obedient Servant

President

Encl: 51

From the Sub-Committee of Municipal Commissioners appointed August 4th 1900

To the President of the Mysore Municipality

Sir.

With reference to the resolution of the Board of municipal Commissioner dated 4-8-1900 appointing up a Sub-Committee to examine into the details of municipal income and Expenditure with a view to the improvement of the revenue so as to allow the Board to undertake sanitary improvements in the City of Mysore, we have the honour to submit the following report:

1. The Board is to be Congratulated upon the generous relief afforded by the Government in sanctioning a loan of Rs 39000 to the Municipality This has been followed by a grant of Rs 10000 from the Plague Commissioner to allow of immediate measures being taken to improve the sanitation of the City by opening up

up congested localities and by establishing a system of house to house Conservancy. The opening balance of Rs 4490 ~~ff~~ at present standing to the Credit of the Municipality may also be devoted to the same purpose and the Board is thus in a position to under- - take such reforms as demand — immediate attention at a Cost of — Rs 93901 This amount however is one which is not likely to be again at the disposal of the Board and the very measures adopted by the use of this amount will entail upon the Board an increased annual Expenditure. The Committee therefore Considered it their duty to suggest ways and — means for improving the annual revenue of the Board Therefore they Suggest:

A That the Government be asked to make certain Concessions to the Board, such Concessions to Extend over a period of ten years.

B That certain taxes be levied

A We submit that the improvement of the City

City from a Sanitary point of view is the first Care of the Board: that neglect of Sanitation Continued over a long period in the past, has brought the City into such a Condition that the dimensions of the task before us make it almost impossible for us to undertake it with any hope of success, while our revenue remains as it is. Relief of some sort must be obtained by us. We think that it is possible by levying one or two new taxes to secure sufficient funds for our purpose — provided that the Government grant the request made by the Board in 1894 and relieve the Board of all Charitable and Educational grants for a period of ten years. Such a Concession would place at our disposal an annual sum of Rupees Sixteen thousand one hundred and ninety Six Rs 16196.

We therefore repeat our request, and plead that in view of the — distress that has fallen upon the city, and in view also of our financial inability to relieve it, our request may be granted

B New taxes

The Committee is of opinion

opinion that the suggestions made by the Committee appointed in 1899 were reasonable and they therefore repeat those suggestions adding to them such emphasis as the exigency of the times demands

They are as follows

1 That a duty of 2 per Cent be levied upon all metals the income which such a levy is estimated to yield is Rs 5000

2 That the Bye-laws introduced by the Bangalore Municipality to regulate the sale of tobacco, be introduced also in Mysore This will not only bring the two Municipalities into line but will secure an additional income of Rs 3000 per annum

3 The Plague Commissioner in making his grant to this Board has instructed the Board to undertake a scheme of house to house Conservancy The Committee entirely agrees with the Commissioner that this Excellent proposal should be carried out But the Committee suggests that in view of the great

great advantages that will thereby accrue to each householder a Scavenging Tax Similar to the rates Sanctioned in the Case of Bangalore Municipality, may be levied The Sale of the Nightsoil thus removed would Considerably increase the Municipal revenue and attention should certainly be directed to this source of income, but putting this out of sight for the present, it will not make that the levy of the very small amount Suggested will result in increase of municipal revenue Rs 7000

3 The levy of Tolls on all vehicles, — Suggested by the Committee appointed in 1894, has been Sanctioned by the Government, and has recently Come into force We do not think that we Exaggerate in anticipating a yearly increase to our income from this Source of Rs 20000

4 The Revision of house tax suggested in 1894 and again in 1899, has been undertaken with satisfactory results and we anticipate an increase under this head of Rs 2000

5 To these several amounts must be added

added those at present standing in our annual Budget under the head of

1 Compensation allotment Rs 10000

2 Buildings original Rs 2000

It will thus appear that if our suggestions be carried out, the Board will have at its disposal not only an emergency grant of Rs 73000 for initial measures but also an annual revenue of more than sixty-five thousand rupees to be devoted — solely to the purpose of improving the sanitation of the City We are of opinion that nothing less than we propose will serve and earnestly ~~request~~ beg that our requests may be granted in full.

In the Course of Committee's — investigation the charges Connected with the office staff of the Municipality Came under notice, and the Committee suggests that the following rearrangements of the staff be sanctioned: ——————

That the appointment of a Health officer

Health officer makes it unnecessary that the Board should retain the services of the Sanitary Inspector and the Committee therefore suggests that he be transferred to some other — Department.

2 That the manager of Municipal office belongs to the department of Public works and that he may revert to that department.

3. If the above mentioned changes be made, it will be possible to make the following desirable appointments.

(I) A Collector on a monthly salary of Rs 100.
(II). Two Sanitary Inspectors on Rs 30+15
III) Two public works overseers on Rs 30+15
IV) A manager on. Rs 50
V) A Health officer, salary according to grade with an allowance of Rs 50.

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Dated 10th December 1900 ~~189~~

To

The Secretary to the Government of Mysore,
Revenue and General Departments.

SIR,

With reference to your docket no 6582/20493 dated 12th November 1900, calling for certain information on the differences observed in the Statement accompanying the report on the financial condition of the Mysore City Municipality, I have the honor to state that the total cost of the Charitable grants and Educational charges, namely. Rs 17,151 as provided in the Sanctioned Budget for the current year, is correct.

But in the amount of Rs 16,196 given by this office, the following omissions occured through oversight.

(1) Amount reduced from Educational charges in the Supplemental Budget for last year, but since added in the

the Orequal measure for
current year Rs 500--

(2) 1/3 additional cost of
dispensary, as per Govt Rs 4 80
Proceedings no $\frac{12322\,5}{2\,7\,13892}$ d 12-5-1900

(3) Deduct amount added
by clerical error Rs 25-----
Total Rs 955---

On the proposition-Statement, the
listing-Scale of the present Sub-Overseer
on Rs 50 + 15 was omitted by oversight
and arrangement will be made to pro-
vide him with a post. A fresh State-
ment is herewith submitted and it may
be substituted for the old one.

I have the honor to be,
Sir,
your most obedient Servant

Correspondence ending with letter no. 416 dated the 10th December 1900 from the Presdt of the Municipal Commission, Mysore City, in regard to the loan of Rs 2,00,000/- proposed to be raised in the open market by the Mysore City Municipality

Order thereon

Govt observe that the exact purposes for which the said loan of 2 lacs will be applied have not been stated. ~~not been stated by the President, the is accord. This information which is~~ ~~urgently requested to furnish the~~ very important, ~~information~~ should be furnished at a very early date

2. The President's attention is drawn to the proposal contained in para 9 of the

R.L. 524.

5763
L.D. 284-93 3/10/1901.

3/10

From the Pt Mysore Coll
3579 16/11/01 L829

Memo received with the Plague Commissioner's letter no. 6.9 of the 12th September 1900 and sanctioned by Govt. in their order no. Pg 210-12 dated the 15th Septr. 1900, and he is requested to report 1, the extent to which that proposal has been carried out, 2, if no action has since been taken in the matter, the reason for not doing so and for the cause of delay 3, the total amount paid by way of compensation since the 15th Septr. 1900, and 4, the number of houses pulled down and the number of new houses built since then.

3. The Vice-President ~~reported to Govt~~ formed the Deputation that the ^ added subject to approval. GB
houses which were ordered to
removed were generally en-
with debts charged
them, and that therefore the
compensation amount would
be available for building

for building new houses. Govt consider that the inconvenience brought to notice is, perhaps real but the President is requested to report what suggestion he would, make to remove this inconvenience whether it is not possible to transfer the encumbrance from the old to the new house, ~~and~~ whether the effort would be stimulated by offering the land gratis to those willing to build, and whether there is any objection to blocks of houses, say about 100 in each, of a standard design and of cheap construction being built by Govt and offered to different communities.

4. The President will

be good enough to discuss
the whole subject thoroughly
and to suggest very early
a definite plan of action
for adoption.

No. 35-7
En. one

The city municipal [illegible]
Mysore dated the 16th Nov

From

D Ramanuja Iyengar Esq.
President-municipal Board
Mysore.

To.

D V. Gunjundayyah Esq. M.A. M.L.
Secretary to the Government-of
Revenue and departments 13 and

Sir,

With reference to Government-Pro-
-ceedings no $\frac{5-753\ (0^3)}{L.T.\ 204-93}$ dated 3rd October 190
calling for a report-on certain points re-
-garding the city improvements for
a loan of 2 lacs of rupees has been
for, I have the honor to state that
was solicited to raise the said loan in
open market-to effect-improvements in
city on the lines laid down in the project-
submitted with this office no 710 dated the 2
april 1899 for Rs 2,62,911. After the
of this project, a sum of Rs. 39,000/- was
sanctioned in Government-Proceedings
$\frac{30\ 8^{5}\ 9-92}{L.T.\ 3036}$ dated the 28th august-1900.
reducing the proposed loan to Rs. 2,23,9
Under present-circumstances however

Rs 200000 would be quite enough to complete all the improvements for which details have already been submitted with this office no 710 dated 26th april 1899. An abstract of the above project is here with submitted for ready reference.

2. As regards para 2 of the Proceedings under reference I beg to state that the house-sites in each of the 4 Extensions have already been marked out. The Dolegars of Karangere have been persuaded to build houses in the Jalapuri Extension and the 1st Councillor has seen more than 100 houses in course of erection there. Some of the Tenders whose houses situated to the west of Devaraj Nargel were demolished under the Plague Rules have begun to build new houses for themselves in the Ediga Extension and the inhabitants of Kalanada Kanegatare are also being persuaded to follow these example.

In the Chalinahally Extension 8 Sanitary houses were built as origin

by the Plague Commissioners and these houses will be taken up by the people as soon as the estimate for the Vani Vilas road is sanctioned.

3. The amount of compensation paid since the 15th of September 1900 is Rs. 34,571/ the total number of houses dismantled is 250 and that of new houses raised 60.

4. With reference to para 3 regarding the transfer of encumberances from the old to the new houses, I beg to state that such transfer would be possible only with the consent of creditors. But in these times of Plague and uncertainty they would rather prefer to realize at least a portion of their investment at once than wait for its full recovery in the uncertain future.

5th Grant of land gratis would in some cases stimulate to erect houses in the Extensions, only such of the people as are possessed with the required means to some extent. On the other hand, poor people would be averse to go to the Extensions though the lands be given gratis, because they are the working and would therefore prefer

busy centres in the city to the new Extensions

6. In order to overcome all these difficulties, I beg to suggest that blocks of cheap houses of different designs, may be constructed in all the Extensions for different classes of people who may then be persuaded to take them up in lieu of the compensation for their houses to be removed and that the encumberances on the latter if any, be transferred to the new houses.

I have the honor to be

Sir,

your most obedient Servant

SERIAL No. 5

Read:-

Correspondence noted with letter No:35" dated the 16th November 1901 from the President of the Municipal Commissioners Mysore City, in regard to the proposal of raising a loan of two lakhs of rupees in the open market for effecting certain improvements in the city.

Order thereon.- No: 17367 & 26/4/02
Dated Bangalore

Government consider the advance of Rs 20000 sanctioned in Govt: Proceedings No: F 92/L.M.036 dated the 20th August 1900 has resulted in considerable sanitary improvement of the city by the removal of some very congested parts. But the starting of large projects beyond the present needs of the Municipality, and vague proposals not quite capable of practical realisation cannot do much good. It would be inconvenient and often impracticable to deal with such proposals properly.

Further definite proposals such as the removal of other similar blocks may be submitted separately in their order of importance so that Govt: may be able to pass final orders for carrying them out in that order and according to the available means.

24/4
Secretary.
